

## WP3: Analyzing a Visual Text

---

Analysis is a skill that you'll need throughout college and into many of your future careers. This assignment asks you to analyze a visual text that's part of a series in order to practice this skill.

### The Basics

- Find a visual text that's part of a series. Here, "visual text" can mean anything where the visual element is the primary way of conveying meaning, such as an image or video. The "series" can be formal (such as a single instance of an interrelated ad campaign) or informal (such as an online meme). You will need to focus on **a single part of the series** when making your analysis. Please note that no two students can use the same series of visual texts.
- **Analyze the part of the series that you've chosen.** Try to break down how it makes its meaning. Consider things like subjects, color, and text if you're using an image. You may additionally consider sound effects and music if it's a video.
- **Use elements from the visual text as examples** to help make your points about the analysis.
- **Use at least two additional sources to assist with your analysis.** At least one of the two sources must be a scholarly source. The other source can be a scholarly source or a non-scholarly source. Both sources must be quoted and cited using APA style.
- **Clearly support your points about the visual text.** This support may come from your examples, your research, or clear explanations of your rationale for certain points.
- **Create a new version of your visual text** that fits into the series. The new version should clearly fit into the series that you've chosen.
