- Please speak English during class time. You can speak to me in Korean outside of class or use Korean during class time if you already tried to explain in English but can't.
- Please complete all readings before class time. We will talk about the readings during class, so reading before class is very important.
- Please take all writings seriously.
- And most importantly: please always do your best. You will only get as much out of this class as you put into it.
